

### **Share your Product content**

worldwide

The web-based publishing application is almost indispensable for product manufacturers, brand owners, supply chains and wholesalers. With its userfriendly user interface, it offers a quick introduction to the world of product content exchange.

Capture item master data easily, step by step in the browser.

This may also include digital assets such as product images, safety data sheets, certificates, etc.

### News

Current Release Notes with a record of changes to the Software-Version.

\* Gain insight into the following topics: User interface, searching for an item, creating a new item, copying items, releasing and publishing items, Excel download and upload, creating and editing digital attachments

### **New-Option**

For instant capture of item data, packaging, and digital assets.

### **Overview Processing Status**

Overview of processing status and item status with the number of all items (GTIN's).

## **Feedback Function**

The feedback forms integrated in our application are an easy, direct and fast way to communicate with us and make suggestions for improvement.

### **Search Function**

Is displayed as an element of the main navigation and thus enables searches to be started in every module. For example, a part of a GTIN can be entered here. The Search button triggers the search. If there is a match, the corresponding list is opened immediately.

### **Search Panel**

Shows the various selection and search components. You can define search and filter criteria to control the selection of items and thus limit the number of items in the hit list.

### **Footer Section**

For the preview of a selected item, the validation report, and other information about any actions performed by the user.

\* Gain insight into the following topics: User interface, searching for an item, creating a new item, copying items, releasing and publishing items, Excel download and upload, creating and editing digital attachments

### Menu Bar

Access to all functional sections. Also the standard functions like language or time zone, change password as well as the logout function are called from here.

### **Central View**

Item list. Contains the items belonging to your supplier GLN.

# **Item Editor** publishing

### **Navigation Panel left-hand**

The navigation panel on the left side of the screen represents the main part of the item processing. If you click on the corresponding topic, the capture mask opens on the central screen and the item changes can be carried out. By clicking on the headings you can switch between the groups/attributes.

The navigation panel shows the progress of the work by means of coloured icons. The Mandatory fields option in the navigation panel allows you to move directly to the mandatory fields that still need to be filled in.
